B. R. HAMSHER. | W. F. CALDOUN. HAMSHER & CALHOUN, Prop'rs DECATUR, ILLINOIS.

(intered at the Post Office at Decatur, Illinois,

WEDNESDAY EVE., DEC. 2, 1891.

Cleveland's Gospei in Peril. Grover C eveland, in his famous turiff message to Congress held that the tariff "raises the price to consumers of all articles imported and subject to duty by recisely the sum paid for such duties." He also held that domestic manufactures the like of which when imported were dutiable are also advanced in price to the onsumer "nearly or quite the same enhanced price which the duty adds to the imported srticles."

The result of the operations of the new tariff law embracing all articles on which beyond honest onvil the rottenness of the Cleveland theory. The fact that the prices of these articles have not been advanced in price to the consumer and avenues have been opened for tens of housands of American workmen, shows he hollowness of all free trade theories when applied to American interests.

If the operations of a protective tariff were what Cleveland and his kind of po'itical economists olaimed, in every case where the new tariff law raised the duties there would be an equivalent adance, not only in the price of the imported article, but in the domestic article as well. If this were true of the law, the Democrats would be the happiest people on earth to-day. They would point with satisfaction to the effects of the new tariff as proof of the correctness of their theory. But they are not doing any such thing, for the simple reason that the new law has not worked in harmony with their windy utterances, and they are driven to the resort of saying that any nan who enys the Democratic party is a free trade party is a list.

More Trouble in Tennesses.

A new place has been put on the mining troubles in Tennesses by the conduct of some white univers at the Oliver Spring mine. The convict miners had been driven from this mine, at the same good advice. "We have used Chamberlain's Cough Remedy in our family in cases of sudden colds and soie throat and find it all that is claimed for it. One bottle or less if taken according to directions will, we believe, effect a cure in any ordinary case and save the expense of large doctor bills. Especially would not have anything more to do with the convicts, and proceeded te employ all the free laborers who offered thom More Trouble in Tennessee all the free laborers who offered thomselves. They employed both whites and blacks and worked them separately. They had work for at least 160 more men than offered themselves for employment, so that there was work for all who were surployed. In spite of this fact the white miners, Monday, got drunk ermed themselves with winchesters and began firing through the cubins of the negro miners with the view of driving them away from the mines.

Those negroes were not in the way of those miners, did not work in the same gangs, and were not even holding a job which another was applying for. There is not an extendating circumstance surrounding the wanton attack upon the colored miners. It is mexcusable in every way, and serves but one purpose, namely it illustrates how permotons is the teaching, in states like Tennessee, which propo gates race prejudice and creates a civili-They do the right kind of work when they get there, too. No violence, no unpleasantness—but a mild and gentle cleansing and regulating of the whole system. Sick

The State Convention.

The Republican National Committee has fixed June 7 1892 as the time for holding the convention. Under the rules the promptly relieved and permanently cured. They're the best Liver Pill ever made. Purely vegetable, per-State convention for selecting delegates must be held at least thirty days be fore the National convention which brings the latest date, that State convention may be held, May 7, 1892. As the election comes in November, this date HENSIAW and seems early to put out a State ticket. This has given rise to some discussion as to whether it would not be preferable to ld two conventions.

The State not have Everything Entirely New. ing been redistricted will have four electors-at-large instead of two as heretofore, and oight delegates at large instead of four and in addition will have two Congressmen-at-large, making in all fourteen mag in a ldition to the candidates for State offices to select at the State convention. The magnitude of the work of nominating all these men at an early and single convention has caused

some to hesitate and declare in favor of two conventions. It is clear that two conventions would involve much more time and expense in every county in the State, and would not be as satisfactory in the end as one convention. From nearly every point of view it seems best that the work be done at a single convention notwithstanding the fact that each convention would necessarily have to be held early.

Regarding the work of the Pension Bureau the secretary says: Burean the secretary says:

The present issue of pension certificates is about 30,000 per month, and it is thought the Pension Burean will be able to carefully adjudicate 350,000 claims during the present year. The work at this rate will allow all lawful pension claims within the next thirty mouths, and of course, all first payment will then have been disposed of. This alone will cause a drop of \$30,000,000 in the appropriation.

Mr. Miller spoke from and experience, for he has recently drank the bitter cup of sorrow in the loss of his son, and his words were full of pathos, reaching the words were full of pathos, reaching the hearts of all, and many were in tears. His leading thought was that every one must, at some time, drink the bitter cup of sorrow; none can escape. He rejected the theory of despair in which sorrow has no hope, and also the theory that God affiliets one for the sins or for the benefit of others, and urned that of reason and faith in the fatherhead of God He affiliets only becames affiliction is a means of developing character, and we should Chovalier Bayard Louge, No. 189, Koigh's of Pythia, elected these new of developing character, and we should regard affletion as God working through laws and for the greatest good.

"Nabobs."

The Hershaw and Ten Broeck company appear to-morrow night in the "Nabobs." The piece is of the same order as "A Parlor Match," "Natural Gas," "The Dazzler" and numerous others. It abounds in sweet, catchy music, splendid dancing, attractive stage pictures and plenty of fun. There is nothing of a course nature about it.

o details, the dancing of Miss Forrest vas simply superb and a better combinaion of agility, grace and beauty than this young lady presents is rarely seen on the stage. She owned the house after her first dance. Miss Ten Broeck was happy in her part while Honshaw was immense and the ladies in the audience mourned because in the early part of the performnce he was obliged to spoil a handsome ace with a grotesque make up.

A neighborhood party was given last evening at the residence of Mr. and Mrs. Albert Barnes, on North Church street. It was a delightful affair and about 25 were present. The hours were from 7:30 to 11:30. At drive whist Mrs. J. M. Muris won the first ladies' prize, a cup and saucer. W. C. Johns got the first gentlemen's prize, a Mother Goose's Phymes. By coming nearest to guessing the amount of money in a purse, W. C. Johns secured a photograph of Baby church justice, owing to ill health, and were served. Those from out of the city were Mrs. William Nash and Mrs. Lorenzo Leland, Ottawa, and Mrs. Louise S. Ackerson, San Francisco.

other good people frequently are. Mr.

Van Oleve of Chicago says he is willing

to be sworn to a remarkable fact about

the bird which has escaped the ornitholo

gists. His story is that as soon as

brood of young sparrows is hatched the

mother lays some eggs and makes the

young ones sit on them and hatch them

out. In this way the mother is enabled to give her whole time to laying eggs and

hustling for provender, and every brood

hatches out its successor, and then goes

out to make its own living. The Depart

The City Full of Chicago Real Estate Boomers. Nearly every town and city in the

ountry is thick with shrewd gentlemen whose special mission It is to boom Chi-

osgo real estate. Decatar is a popular

point for the strangers to make offers

which are tempting to some of our towns-

people. The Chicago emissuries see

millions in Chicago dirt, and color their

stories in dime novel style, painting pict-

ares studded with dollars, and giving

rosy accounts of what the World's Fair is certain to do for the Lake City real estate. One proposition is to form ( syndicate of ten Decatur men, represent ing \$100,000 papital, and buy 40 acres near Chicago, plat the land and put the lots on the market. Big returns are promised. Three gentlemen are said to have agreed to not their names down for \$10,000 to go into this deal. Decatur capitalists are well able to take care of themselves, and the chances are that but few if any will invest largely in Chicago soil until ofter the World' Fair. Decatur dirt is pretty good stuff just now, and it will continue to be valuable. There are ample poportunities at home for profitable investments. The Obiosgo visitors are not making rapid headway here, and as the days go by

they will realize more fully than they de

It was some time before the fire-fighters could locate the fire, which was finally discovered to he under the stairway near the front of the store. Then it was an easy maste for the chemical to suppress the smouldering fire and avert the possible destruc tion of that part of the block. Later 1 was learned that just before closing Mr. Wallace had gone down into the cellur after coal. He has a lamp on the top step. He lighted it as he went down Yesterday Senator Palmer received and states that when he came back he blew it out as usual. He thought he had pay their respects. He says he hopes to done so, but he was mistaken. The get to Washington in time to help make lamp, which is of odd pattern, exploded, and caused the fire. The damage to the hats and ribbons will run up into hundreds of dollars. The property is insured.
